

# How to load Fundamentals and PMER when using Chrome

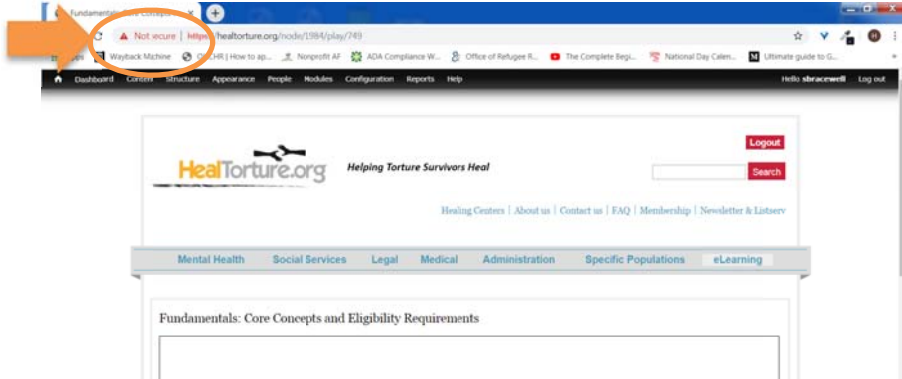

Go to the Fundamentals lesson you are trying to load and Click on the shield icon:

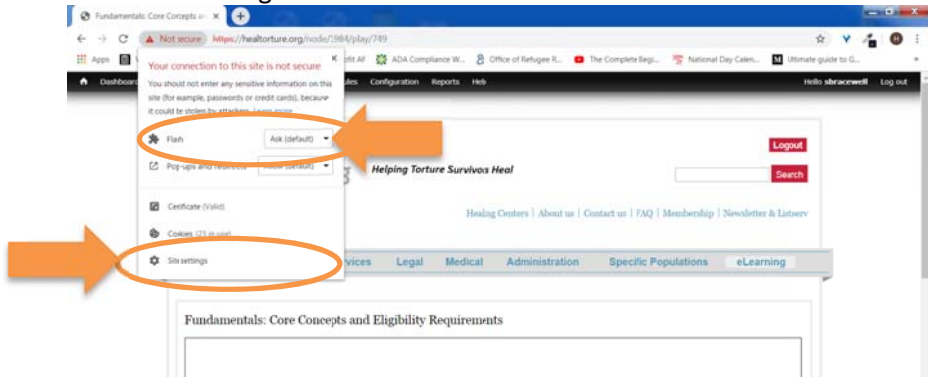

Click on “Load unsafe scripts”:

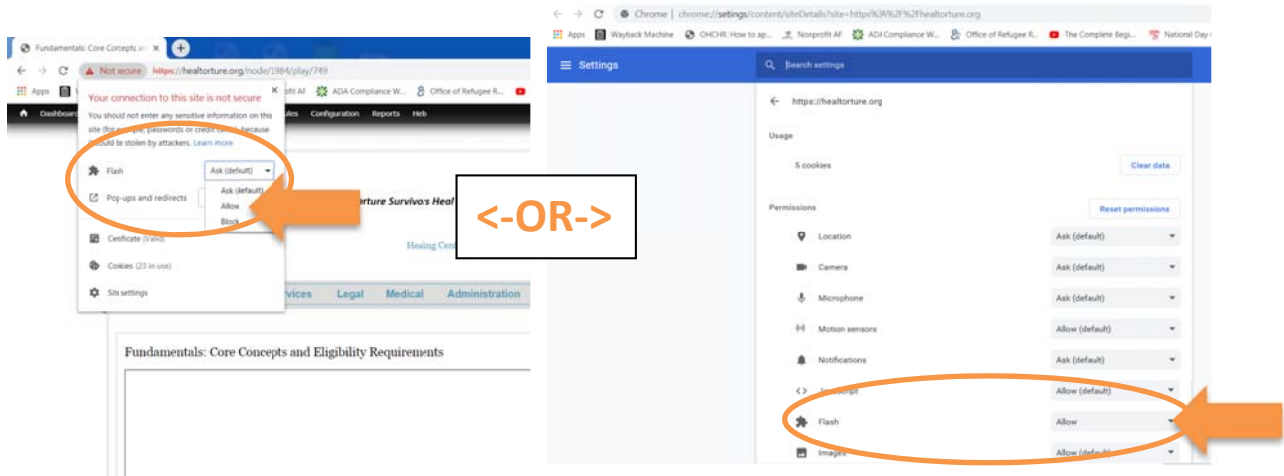

Click on the navigation bar where it says “Not secure”

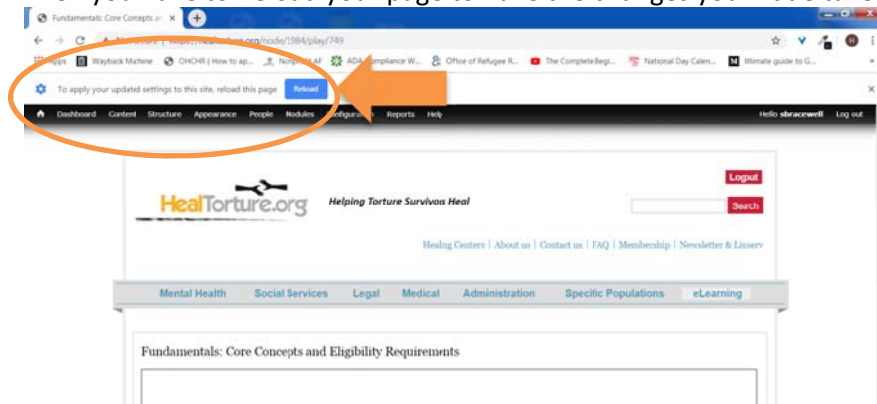

Click on the drop down menu for Flash or if Flash option is not showing Go to Site settings:

On both images below you can see Flash - Choose "Allow":

Then you have to Reload your page to have the changes you made take effect:

And now your Fundamentals or PMER lesson should load!

If you are still unable to get the lesson to load, please contact [sbracewell@cvt.org](mailto:sbracewell@cvt.org) or [healtorture@cvt.org](mailto:healtorture@cvt.org) for assistance.
