VICTIMS of
TORTURE
National Capacity
Building Project

HARVARD PROGRAM IN REFUGEE TRAUMA

About the Program

Offering a holistic health care approach to survivors of torture, their family members, and their community can be challenging.

This new national Grand Rounds course will present a series of lectures from leading experts on the best practices and evidence based medicine for the care of survivors of torture.

This two-part series is sponsored by the Harvard Program in Refugee Trauma, the Center for Victims of Torture's National Capacity Building Project and the Office of Refugee Resettlement and free of charge for attendees.

Beginning
June 26th
